RECLAMATION
Managing Water in the West
Reclamation Subsidence
NGS Stations
December 2011 to July 2012

Subsidence rates calculated by comparing July 2012 survey values at NGS Stations with December 2011 survey values. Additional points that were surveyed between May 2012 and July 2012 were used along the Arroyo and Temple Santa Rita Canals to supplement the data around point 375 USE.
