

**San Joaquin River Restoration Program  
Fisheries Management Work Group  
Technical Feedback Group Meeting  
March 11  
1:00 p.m. to 3:00 p.m.**

**Nargahi Hall Room N-124  
CSU Stanislaus  
Turlock, CA**

**Purpose**

- To present the Fisheries Management Work Groups (FMWG) Conceptual Model that will serve as the basis for the Work Group's Fisheries Management Plan.
- To gather technical input from Stakeholders and other technical experts.

**Desired Outcomes**

Participants will walk away from this briefing with an understanding of:

- How the FMWG has developed a Conceptual Model as a basis for development of a Fisheries Management Plan.
- How the FMWG is approaching implementation of the Settlement.
- Process to date, including delivery of draft Conceptual Models.
- Future technical stakeholder meetings and opportunity to provide feedback.

The Work Group will walk away with information on:

- Additional technical information.
- Additional items on which to focus their efforts in developing the Fisheries Management Plan.
