

## **Field Activity Advisory Reach 2B Geotechnical Explorations November 2021 – February 2022**

The San Joaquin River Restoration Program (SJRRP) is preparing to conduct geotechnical explorations near Mendota Dam, in Reach 2B of the Restoration Area. Figure A, shown below, highlights the activity area. The effort is to inform planning and design of the South Levee portion of the Mendota Pool Bypass & Reach 2B Improvements Project to meet the goals of the Restoration Settlement and Settlement Act.

**Who:** U.S. Bureau of Reclamation (Reclamation)

**What:** Reclamation will collect geotechnical data using a truck mounted drill rig to determine the soil characteristics on the south bank of the San Joaquin River upstream from Mendota Dam.

Reclamation drill rig

**When:** November 3, 2021 through February 28, 2022

**Where:** Upstream of Mendota Dam on the south bank of the San Joaquin River in Reach 2B of the Restoration Area (see Figure A)

Questions about SJRRP field activities on public and private land should be directed to the SJRRP Landowner Coordinator below. Questions about the SJRRP should be directed to the Public Affairs Specialist below.
